

# AFTER SCHOOL RESET GUIDE

*A simple flow to help your child transition from school to home.* ♥

## Phase 1: Fill Their Cup First

- ☐ Offer a snack right away.
- ☐ Allow 15 to 20 minutes of unstructured downtime.
- ☐ No questions about school yet.
- ☐ Let them lead the play.

## Phase 2: Reconnect

- ☐ Ask one easy question like "What made you smile today?"
- ☐ Do a five minute movement break — walk, dance, or jump.
- ☐ Offer a hug or physical connection.
- ☐ Check their emotional temperature before moving on.

## Phase 3: Now They're Ready

- ☐ Review homework or responsibilities together.
- ☐ Keep instructions short and one at a time.
- ☐ Celebrate effort not just completion.

### Parent Note:

A dysregulated child cannot learn. Reset always comes before responsibility.

*Calm transitions start with connection, not correction.* ♥
